

## Safe Work Practice CONCRETE WORK

### Potential Hazards (Risk Priority MEDIUM)

- Skin irritation (Chemical burns from wet concrete)
- Inhalation
- Long term adverse side effects from silica dust
- All personnel must ensure they have been appropriately trained by their supervisor.

### Required Personal Protective Equipment and Devices

Foot Protection	Hearing Protection	High Visibility	Head Protection	Eye Protection	Face Protection	Hand Protection	Protective Clothing
							

### Safe Work Practice

- Do Not allow wet concrete to make contact with your skin
- Wear all required PPE (As noted above)
- If working with concrete dust ensure you are wearing the proper respirator
- Ensure that you are working with clean equipment
- Ensure you have proper training prior to this task
